EU - LATIN AMERICA MINERAL DEVELOPMENT NETWORK PLATFORM – AN OVERVIEW

Project objectives, structure, tasks and timeline

Implementation period: 15.01.2017-15.07.2018

PROJECT OBJECTIVES

- Continuing the dialogue and consolidating the cooperation between the EU and Latin American countries
- Field of cooperation: Non-energy extractive industries, including all areas of the mining value chain
- Providing comprehensive information for all stakeholders on all important aspects for cooperation between the two regions
- Creating a virtual meeting point that can be accessed continually
- Facilitating a regular opportunity to meet in person for stakeholders from both regions

PROJECT STRUCTURE

1. In-depth data collection and analysis of past and current status of cooperation

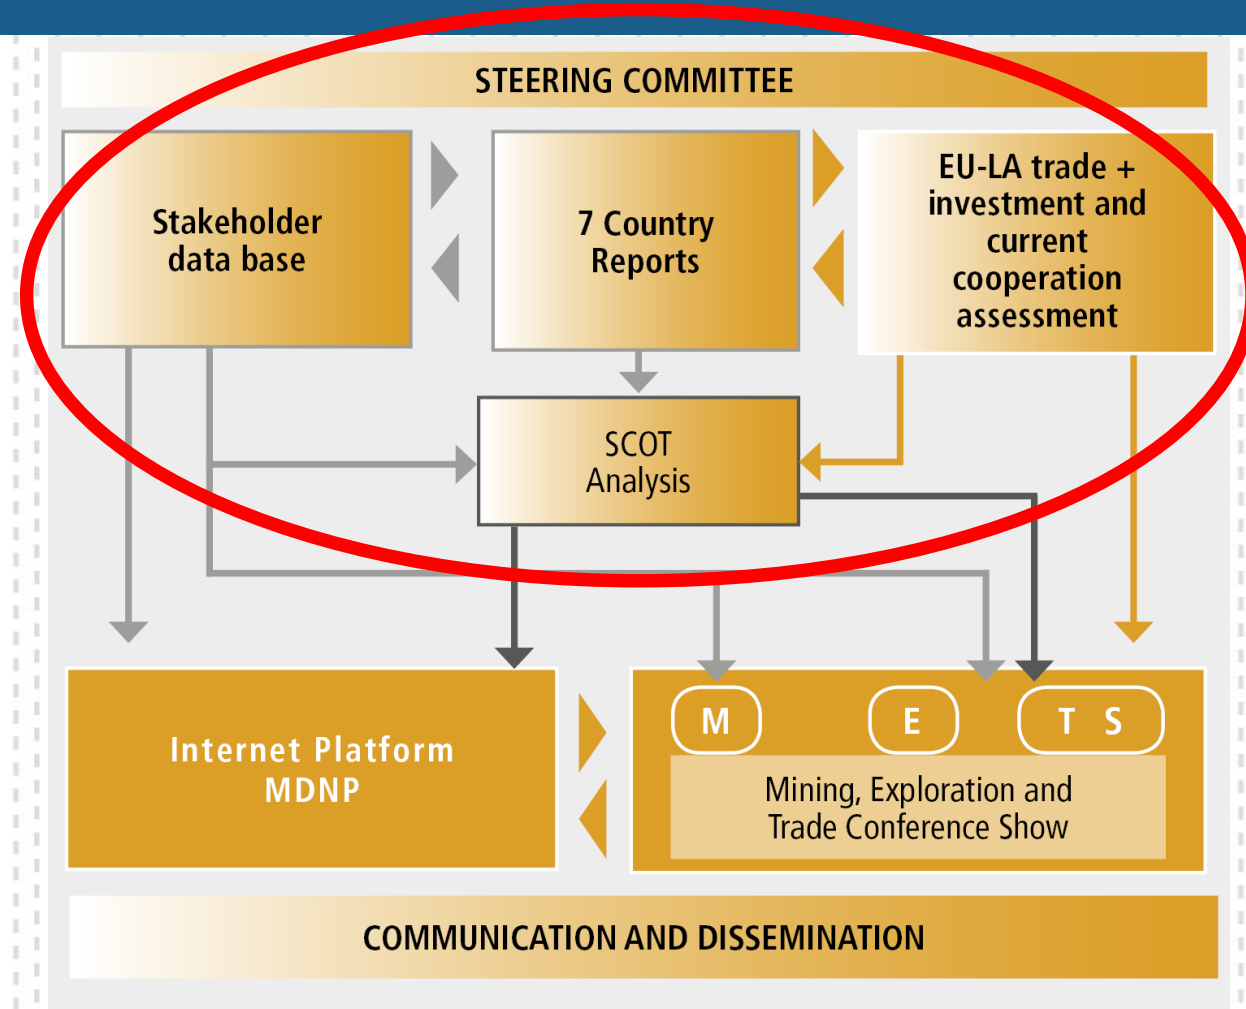

- Provision of comprehensive information
- Basis for decision making for future cooperations

2. Development of the MDN Platform

- Providing continuous access to information
- Creating a virtual meeting space & facilitating easy networking opportunities

3. Originating the METS (2018)

- Creating a physical space for EU-Latin American cooperation, networking opportunities & information exchange

DATA COMPILATION AND ANALYSIS

- Stakeholder Mapping: Who is who in academia, financing institutions, private sector and industry and government
- State of play in the EU-Latin America extractive sector
 - Detailed information on mining and exploration projects
 - EU investment baseline in the Latin America exploration and extractive industry
 - Business relationships in technology supply, specialized services, infrastructure development and R&D&I
- Time frame: Last 10 years
- Profiles of investing EU companies
- Funding & financing instruments to support cooperation

DATA COMPILATION AND ANALYSIS

- Country fiches for all Latin American countries involved
 - 1. drafts available for Argentina, Brazil, Chile
 - Updates will be presented at Perumin (September 2017)
- SCOT analysis (strength, challenges, opportunity, threats)
- Information accessible for registered members of MDNP
- Data collection in progress
 - Sources of information: Regional authorities, industry associations, OECD reports, Euromines analysis, geological surveys, chambers of commerce, networks such as European Technology Platform on Sustainable Mineral Resources, trade statistics, ...

PROJECT STRUCTURE

1. Component: In-depth analysis of past and current status of cooperation

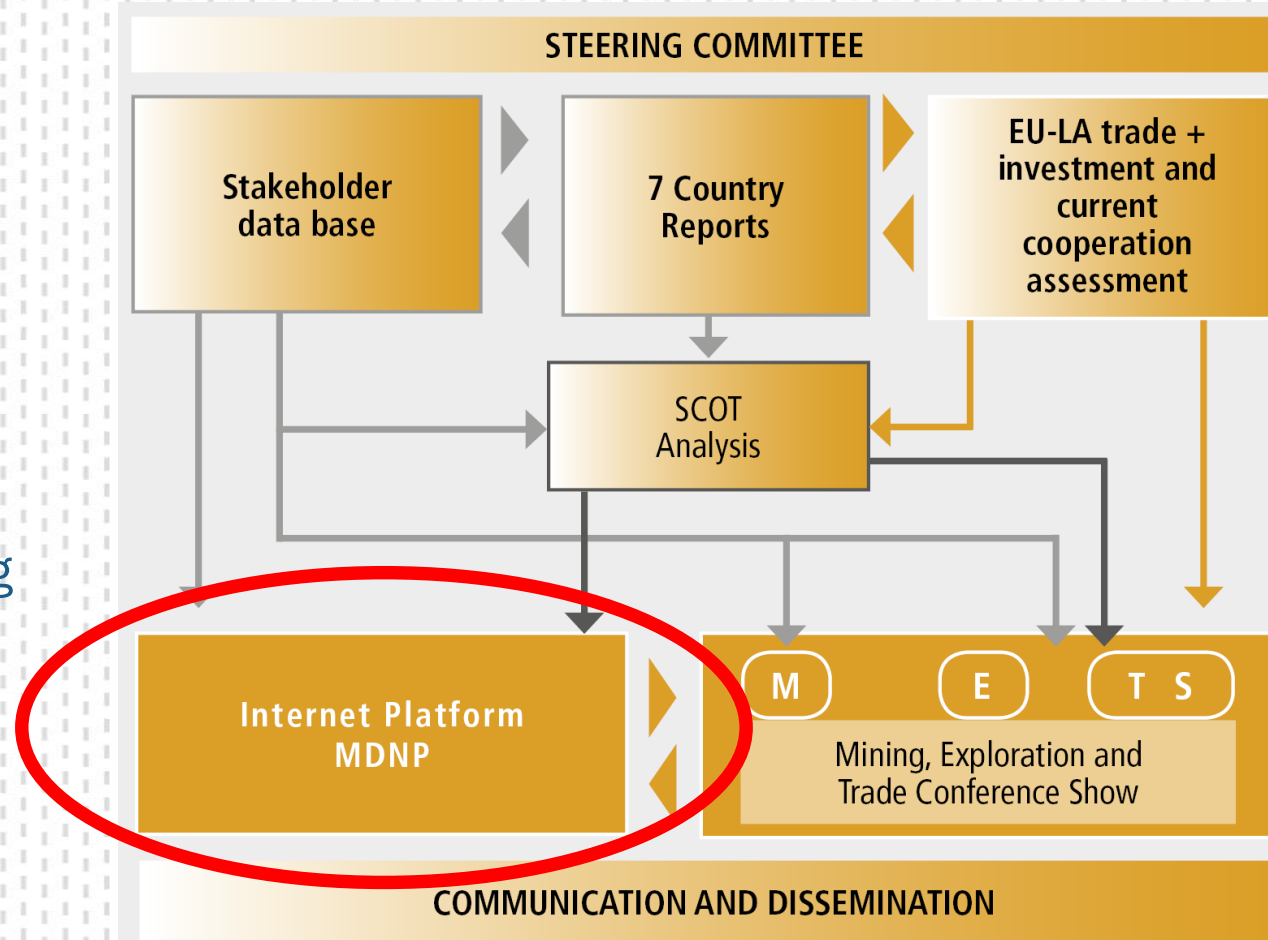

- Provision of comprehensive information
- Basis for decision making for future cooperations

2. Development of the MDN Platform

- Providing continuous access to information
- Creating a virtual meeting space & facilitating easy networking opportunities

3. Originating the METS (2018)

- Creating a physical space for EU-Latin American cooperation, networking opportunities & information exchange

PROJECT STRUCTURE

1. Component: In-depth analysis of past and current status of cooperation

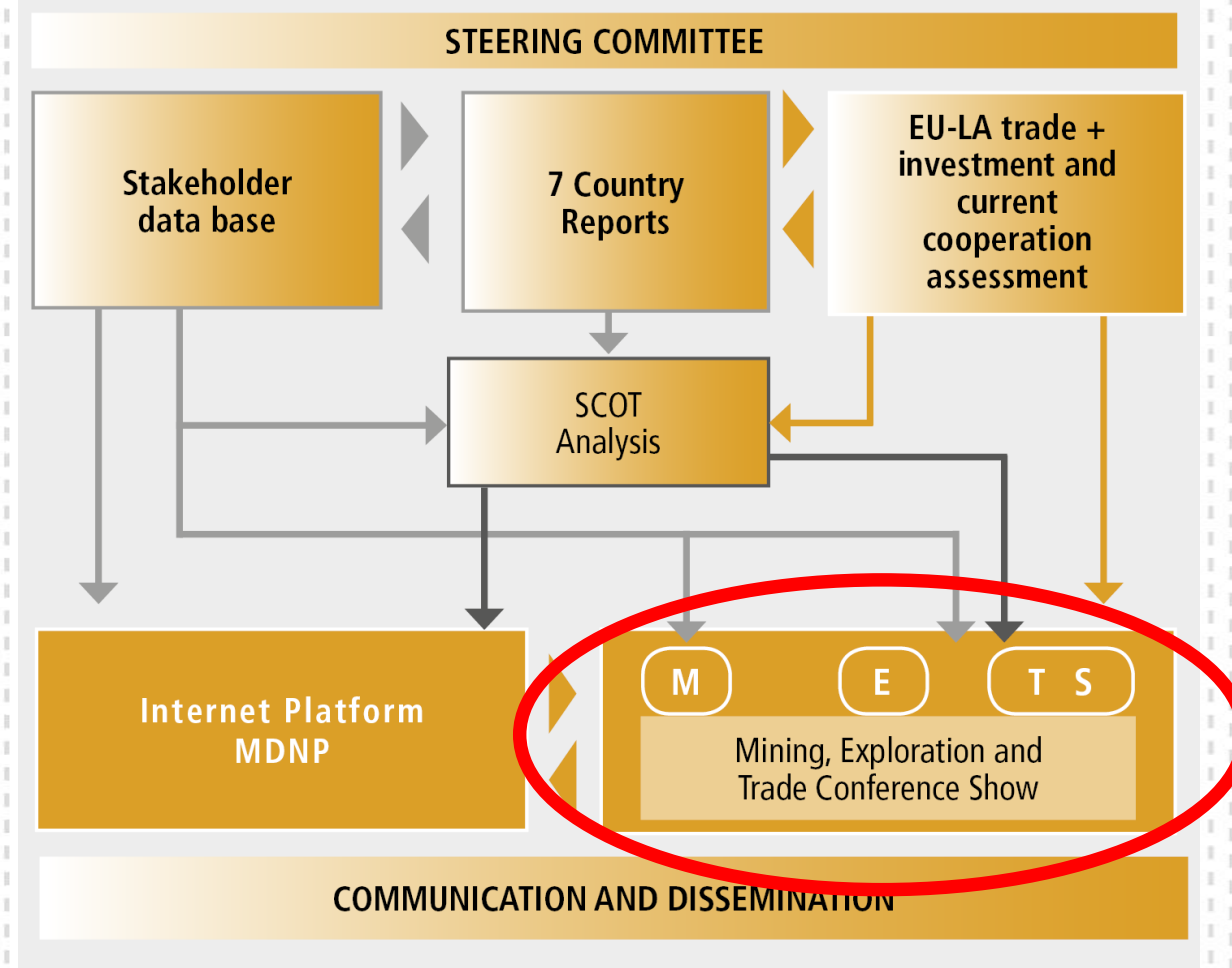

- Provision of comprehensive information
- Basis for decision making for future cooperations

2. Development of the MDN Platform

- Providing continuous access to information
- Creating a virtual meeting space & facilitating easy networking opportunities

3. Originating the METS (2018)

- Creating a physical space for EU-Latin American cooperation, networking opportunities & information exchange

- **Operational Network**
 - Testing of the platform
 - Forum for discussion and exchange on the platform
 - Participating in the METS
 - In-put on workshops & core areas for the METS
 - Feedback: per e-mail, phone or through the website
- **„Focal Points“**
 - Cross-checking information gathered in country fiches
 - Sources of information in Latin American countries

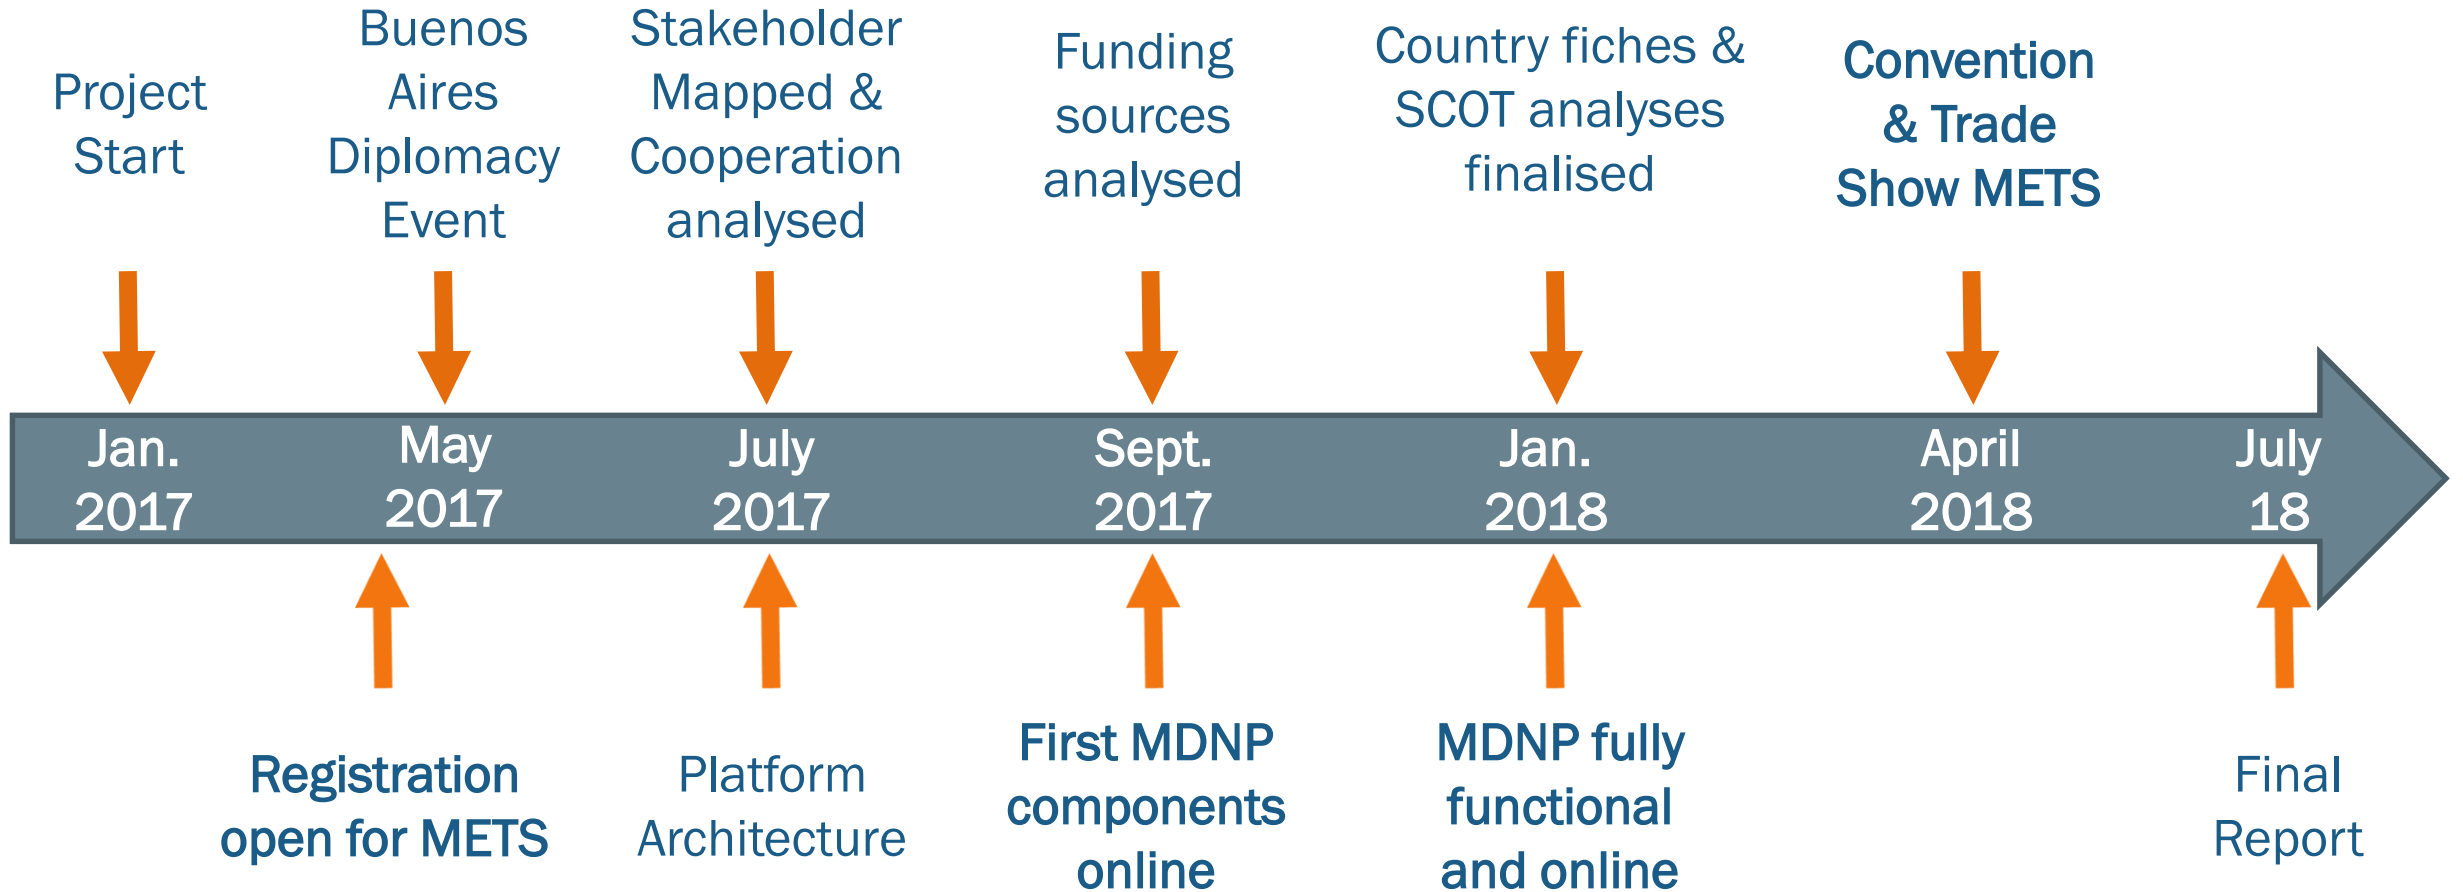

STEERING COMMITTEE

Steering Committee

- Feedback on reports and results
- Guidance on content & architecture of the platform
- Guidance on topics for the METS

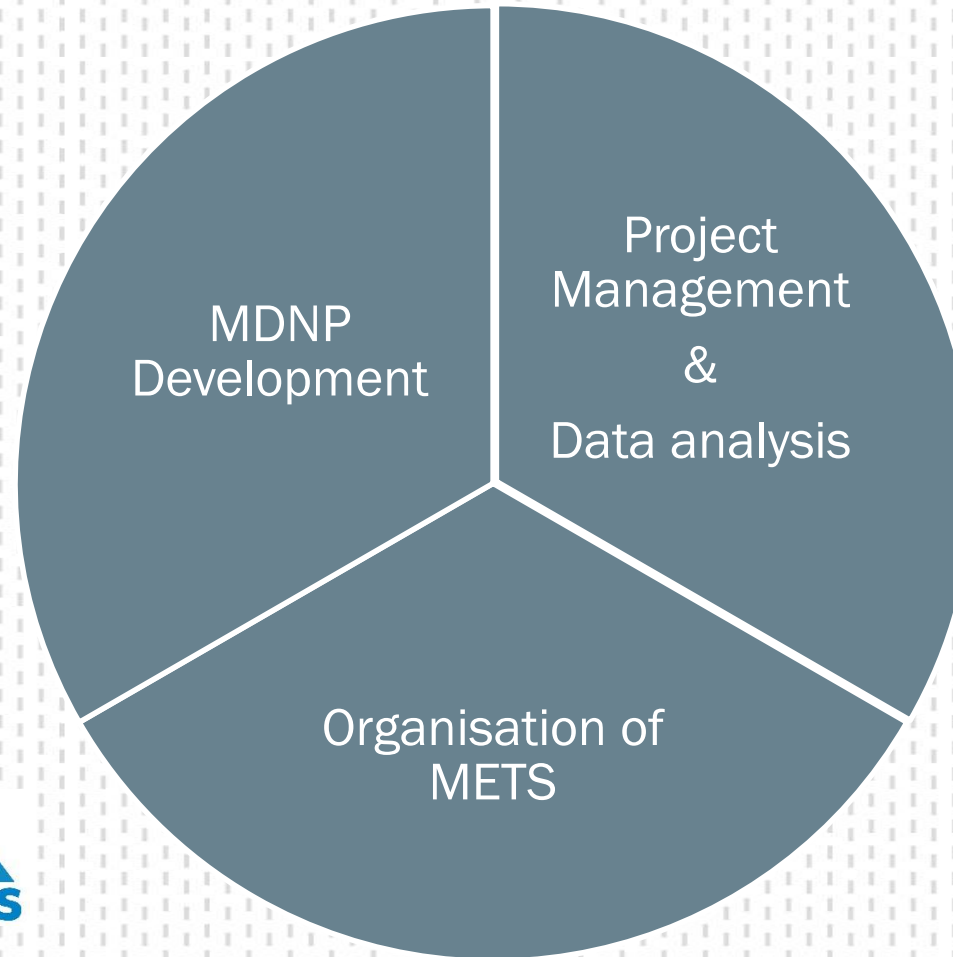

TIMELINE

CORE TEAM AND MAIN RESPONSIBILITIES

Maite Zazpe
Esther Murillo

 **zabala**
innovation consulting

Eduardo Chaparro
Aissa Rechlin

Corina Hebestreit
Mirona Coropciuc
Veronika Sochorova

- **The Mineral Development Network Platform MDNP and the Mining Convention and Trade Show are thought to continue the dialogue in extractives between the EU and Latin American countries**
- **Today we will present first results of the analysis, MDNP architecture and organization of the METS**
- **Your feedback and engagement is highly appreciated, today, throughout the project and long-term**

Thank you for listening
